surgeon at Kolhapur was moved (a 2nd class Hospl Assistant being substituted) in order to make provision for the continuance of Rs 200/- per mensem, and when the grant was made for one year more only & for no longer period.

Recently the D.C. has again reported that the grant may be continued, and in his Docket No 226 Mis 5-3-02 & 5-7-01 the D.C. Secretary has asked the Sr Surgeon if he could conveniently depute a Sub. Asstt Surgeon or Asstt Surgeon for duty at Kolhapur

Mr Dear Major Forbes

I have received some letters from the Coffee Planters in the Kadur District who are in need of rain, as the coffee prospects are still in a depressed condition. I do not think the condition has much changed since the grant was first made - Colonel Campbell has visited the districts & I now find that the Dist Collector also are concerned about it. I should be obliged by your kindly favoring me with your views in the matter. If possible an early reply would be appreciated. I have also sent to you

Yours sincerely

Dewan's Note

Submitted to His Highness.

The European Coffee Planters had engaged a medical gentleman out of a fund subscribed by themselves. In 1899 when they began the coffee depression they solicited Govt aid as they were themselves unable to spare money for the purpose and the Govt sanctioned a ~~Rs~~ grant of 200 ~~Rs~~ a month. This was continued from year to year as there was no material change in the condition of coffee industry or of coffee planters and the last sanction expired on the 30th June last. They have again asked for the continuance of the grant (vide Mr Hollows' letter) and the Govt Dy Govt and the Senior Surgeon have supported it — Col Hearsey recommended it for two years in his letter of the 4th March 1902 and the Govt sanctioned it one year hoping that in the meantime the prospects might change for the better. There has been but no such improvement and it is reasonable that the concession should be continued for another

year. Mr Sreenivasa Iyengar, and rightly have agreed but Mr Madhavan Nair disagrees. He has however given no reasons. There is the necessity for the Branch and Circle Secretary requires that we should continue the help as long as the circumstances remain the same as they were when we first gave it. I therefore recommend that sanction may be graciously accorded to continue the Branch for another year.

Sir

I have the honour to inform you that I have been requested by the members of this Assoc. and others in the Koppa District to bring to your notice, that owing to the great increase of the European and Eurasian community in this district, a Medical Officer of Superior grade to that of Hospital Assistant is sadly needed, this we very much regret to say has been brought forcibly before us by the deaths of Mr. P. R. Collins and Mr. A. Maclean whose lives we think would have been saved had there been a more skilled practitioner on the spot. I would also draw your attention to the fact that the number of ladies in these parts is also largely increasing; taking all these matters into consideration, I trust you will see the urgent and immediate necessity of appointing a skilled Assistant Surgeon to the Koppa Taluk whose head quarters should be at Koppa

To

The Chief Secretary to the
Government of Mysore

Sir,

With reference to your No. 4361/40 dated 4/9 June 1892, I have the honor to forward herewith a statement showing the number of European residents in the neighbourhood of Koppa and the number who sought medical aid at the dispensary for the three years 1889 to 1891 inclusive.

2. The number who sought medical aid at the dispensary does not include those who had attendance at their own houses, or places other than

than the dispensary from the Koppa Hospital assistant, nor of course those who may have gone to Shimoga, Chickmaglur, Bangalore for medical advice.

3. The case made out as to the necessity of appointing an assistant or Sub assistant Surgeon to Koppa does not seem a very strong one as far as the number of European residents is concerned and in that respect I am unable to strongly advise that one should be located there.

4. But it may be that the matter ought not be decided entirely on these lines. It should be remembered that the Koppa planters are a source of considerable revenue to Government, and by means of them a considerable amount of money is expended in the State, and it is easy to conceive the anxiety of those concerned when cases of accident or sudden and serious illness occur amongst them or their families when it may not be practicable to take the sick person to

to Chickmagalur or elsewhere for
superior advice and the delay in
getting the civil or assistant Surge
to come to them might be produc
of serious consequences.

5. Taking everything into conside
-ation I am very much inclined to
advise that a sub assistant Surgeo
might be appointed to Koppa, as
his pay would not be much more
than that of the 1st class hosbl: assi
now stationed there. The pay of th
latter is Rs 60/ with an allowance
of Rs 20/ making a total of Rs 80/pe
mensem.

6. The pay and allowance
of 1st & 2d grade sub assistant
Surgeons are Rs 120/ & Rs 100/ res.
-pectively but if an assistant
or sub assistant Surgeon were
appointed to the charge I would
propose that he should draw
the pay of the next higher grade
becaus-

because of the Malvad climate

drawn by the Hospital Assistant.

Asst to the Surgeon has posted to Kadur in the place of the Hospl Asst on the understanding that the Planters will contribute towards the Establishment — It appears from the Sub's No 8 of 20th inst that they are not now prepared to contribute —

Enclosures show that what some of the Planters want is check attendance of Medl Officers at their own residences — A Hospl Asst or Surgeon must retain for his horse or conveyance & take them to the Estate when sent for to attend on a Coolie but such Planters walk or use his own conveyance & the distance is only 3/4 th or 1 mile — 5 Rs per month is too much for a work in such attendance that has involved the closing of the Dispensary — We must join the good will of the Estate Coolies — As even a European Doctor cannot practice without fees or consequence what is wanted is a European Supt Doctor who would teach good Planters

To,

The Chief Secretary to the
Government of Mysore

Sir,

I have the honour to forward herewith, for submission to the Durbar for orders, X Correspondence on the subject of appointing an European Medical Officer to Chickmagalore or Kadur for the Planters.

2. — Both Associations base their claims, on request, on the fact of a large European Community, including many ladies and Children, being resident in these Districts.

3. — I have not on inquiry been able to ascertain that the Planters Complain of the professional Competence of the present Civil Surgeon at Chickmagalore, or of his predecessor, but there is unquestionably a general wish amongst them that the Chief Medical Officer

P.T.O.

X Correspondence Commencing Yellow Folio, and including letter of date Bangalore Residency Commissioner's Office No. 794 dated 28th August 1894, and the letter to the Secretary Associations dated 1st September, and the letter to the Secretary Associations dated 8th September, and the Secretary's reply dated 10th September Received.

of the two Districts should be a European.

4. — The two districts viz Kaspan and Kadon form the charge of the present Civil Surgeon whose Head Quarters are at Chickmaglore.

5. — Chickmaglore, even though it may, generally speaking, be equi-distant from Munzerabad and Koppa, is a Considerable distance from both, and this is felt all the more when Cases of emergency arise and the services of the Doctor are required in a hurry.

6. — It is not easy to meet the wants of both Communities by the appointment of one Doctor, no matter where his head quarters may be, and, assuming that personally and professionally he would be acceptable to all, as, for instance, in a Case of serious illness or accident occurring at Munzerabad which would necessitate his presence there, his services would for the time be unavailable at Koppa and Vice versa.

7. — The wants of both would however be fairly met in the less serious class of Cases when the sick persons would be able to Come into

Chickmaglore

Chickmaglore for treatment, assuming that the Doctor resided there, but I take it that it is for the former, viz the more serious Cases, they are most anxious to provide.

In the absence of the Dy. General Planters find it more convenient to go to the Hospital at Madras where there are separate Gentlemen's quarters.

8. — As a matter of fact the Brunzer and Planters would wish the Doctors of their choice to reside at Kaipan, and those of Koppa, Solabide &c. would wish the Doctor to reside at Koppa, and Consequently to satisfy the wishes of both it would seem to be necessary to appoint two experienced Medical Officers, (Europeans preferably from the Planters point of view) one to Kaipan, and the other to Koppa, whilst it would also, I presume, be necessary to retain a Civil Surgeon, or other experienced Medical Officer at Chickmaglore, for the performance of the duties now entrusted to him.

9. — The Medical Officers in the two districts at present are: —

A Civil Surgeon at Chickmaglore Col. Fernandez, who is in Charge of both districts.

This Officer is a native of India, who has studied in Europe and possesses British qualifications.

At Koppa there is a Native Asst. Surgeon who possesses the qualifications of Bachelor of Medicine

and

and Master of Surgery of the Bradeas University, and at Kaspan there is an Assistant Surgeon of eight years standing who holds the qualifications of Licentiate in Medicine and Surgery of the Madras University.

10. — I have not had Complaints of any of the Officers holding these Charges, except in the Case of a 1st Class Hospital Assistant, who possesses the qualifications of L.M. & S., who acted temporarily at Koppa, and whose duty there was short, and on another occasion of a Sub Assistant Surgeon at Koppa. The Complaint on this latter occasion had no reference to his professional abilities, but was of a personal nature, and being of a petulant and more or less unreasonable nature, I did not think it necessary to take notice of it.

Some of the annexed Papers throw some light on the character of these complaints

11. — Besides the Institutions of which the above mentioned Officers are in Charge, there are seventeen local fund dispensaries in Charge of Hospital Assistants, who are quite up to the average standard of ability in these two districts, which are the smallest in the Province.

12. — A few Complaints have reached me regarding the supplies of medicines to the dispensaries

dispensaries at Sucklaspur, Mudigere and Koppa.
I would acquire over the list of medicines supplied to
these dispensaries myself, and in addition, inquire
if there is Charge what important medicines,
if any, they were short of, or what medicines
which were asked for by Planters they did not
have, and the wants they represented were very
small indeed, which was what I expected.

13. – These Complaints however had and are
leaving, my best attention and every thing in
reason has been supplied, but I cannot under-
take to make these dispensaries as Complete
as a Chemists shop in the matter of Compounding
elaborate prescriptions, as one gentleman at
Mudigere apparently expected.

14.) – Pending the final settlement of the general
question by Government, I would suggest
that a Sub Asst Surgeon be sanctioned for
Sucklaspur, and that a Compounder at
Sucklaspur and Koppa be raised to Rs 15/-
with an annual increment of one rupee upto
Rs 15/- per mensem.

15. – This including of the Sub Asst Surgeon at
Koppa

This is sanctioned as a temporary arrangement. Some Camp at present to be done —

at Koppa would give a Medical Officer of good professional acquirements, Centrally located to the Mountain of Immigrants and Koppa, and the former would in addition have the Assistant Surgeon at Kaipan or the Civil Surgeon at Chickmagalore to call in in Cases requiring Medical aid and the latter would have the services of the Civil Surgeon at Chickmagalore or Shimoga available under similar Circumstances.

on 4-9-94.

In Continuation of this Office No 794 of 28th August 1894, I have the honor to state that I had, on the 7th ultimo, an interview with representatives of the North and South Mysore Planters Association and that I read to them on that occasion the letter above quoted.

2. – The Secretarys of both associations promised to write to me again after they got back and had Consulted with their Presidents or Committees, but only Mr. Harris Secretary of the Southern Association has done so up to date and his letter I enclose herewith.

3. – The representatives referred to, recognize the unreasonableness of expecting that Government should provide two European Doctors viz, one for Hassan and one for Koppa.

It is quite clear from the Correspondence and

Ref 277 / 1149

and from the Conversation I had with them that it is a question of nationality and that they want a European Doctor to be stationed at Chickmunglur, and with this they would be satisfied if Assistant Surgeons of experience were also stationed at Sucklashpur and Hoppa.

4.— The Hoppa planters would I understand be willing to make a Monthly Contribution if Government considered it necessary in order to secure the services of an experienced Assistant Surgeon or even a Civil Surgeon instead of a Sub-Assistant Surgeon which is the grade of the Officer sanctioned for and now at that place.

5.— Since the interview referred to, I transferred the 3rd Class Hospital Assistant from Sucklaspur and posted in his place a 1st Class Hospital Assistant who possesses the qualification of Lieut so that they have at the present time a Sub. Assistant Surgeon, Mr. Hammantha Rao M.B., at Hoppa, and 1st Class Hospital Assistant S. Ranganah Esq. at Sucklaspur.

Sir,

With reference to the interview you were good enough to accord to the representatives of this Assn on 4th inst, I have the honor to recapitulate the pos in connection with our petition that a European medical Officer may be appointed to the Kadur & Hassan Districts -

We drew yr attention to the increasing number of Europeans in these districts, particularly to the large number of Ladies & Children, for whose sake especially we urged the appointment of a European doctor. We pointed out that we had no complaint to make against the present Civil Surgeon in charge but urged our claims, purely on the grounds of nationality - We represented that it would be much more satisfactory if a European medical officer were located in Chickmagalur, as higher grade officers than there are at present were established at Koppa & Sakleshpur.

Trusting that you will give this matter yr early attention,

Sir,

I have the honor to forward in original the accompanying letter No. 1303 of 25th/29 February 1896, together with a Copy of this office No. 1833 of 24th January 1896 and to request permission for the removal of the Sub assistant Surgeon from Koppa and his replacement by an hospital assistant as there is no necessity to retain an Officer of the rank of Sub assistant Surgeon there now and as Dr. Fernandez and Sub assistant Surgeon Mr. Ch. Narayana are likely to proceed on leave soon the services of the Sub assistant Surgeon will be much needed for duty elsewhere.

Sir.

As I understand that the planters at Koppa have now a doctor of their own I have the honor to inquire if under this circumstance it is necessary in your opinion to retain a Medical officer of the grade of Sub assistant Surgeon there.

As is most probable, the planters principally resort to their own doctor for advice and treatment the duties of the Sub assistant Surgeon cannot be of a more responsible nature than those performed by Hospital assistants in the majority of Local Fund Dispensaries and his services could be more advantageously employed elsewhere.

Sir,

I have the honor to forward herewith a letter from the Deputy Commissioner of Kadur (to be kindly returned)No A of I6.9.98, which is a reply to a circular of mine to each Deputy Commissioner, asking him to inform me after consultation with the Distt. Medical Officer, which of the L.F. Dispensaries in their District, could in his opinion be closed with least inconvenience to the public. From his letter you will see that the Deputy Commissioner strongly advises that Sub- Assista -ant Surgeon Runganna should be transferred from Koppa, in order to supervise the Plague operations at Adjampur, Birur, Kadur, and Tarikere : as he considers that the disease is most likely to be imported into the Kadur and Shimoga Districts at one of these points, from either Bangalore or Hubli. I have on more than one occasion recommended the transfer of Sub-Asstt. Surgeon Runganna from Koppa; but Government in their last reply were pleased to direct that I should not open the subject again as they had already passed orders. Now that Plague is upon us, all available hands are necessary; and as the Planters of Koppa, for whom a Sub-Asstt. Surgeon was originally posted there, have a Medical Officer of their own, I see no reason why the Sub- Asstt. Surgeon should not be transferred. The Hosp Assistant from Hariharpur might if Government wished it be posted to Koppa .

Should Govt. approve of the suggestion of the Deputy Commissioner, I shall feel obliged if order s are passed at an early

early date to enable me to make the necessary arrangements.

Sir,

In answer to your letter No 271 dated 12th September 1898, I have the honor to forward herewith Copy of a letter from the Civil Surgeon on the subject under reference.

(1) As I have before written semi-officially, I consider the first and most important more

is the transfer of the Assistant Surgeon Ranganna from Koppa to Birur, to supervise the Plague work of the Hospital Assistant at Birur; Tarikere and Ajjampur. It is at these four points that the Plague, if it does attack us, is certain to be imported into this and the Shimoga District either from Bangalore or Hubli: and it is most essential that we should have a thoroughly reliable man at a central point like Birur, who would be able to act promptly in an emergency, and be available at any moment. The Planters of Koppa have their own Docto if the Hospital Assistant of Harihar pur is moved to Koppa they will have nothing to

Complain

complain of - and they can be told further that it is as much in their interests, as of every one else's, that the points of ingress into the District should be most carefully watched..

The numbers of passengers by rail entering this and the Shimoga District at Birur, Ajjampur and Kadur is increasing - these are the Keys of our position and must be most strongly guarded.

2) The second move must be the closing of the Hospital at Sakrepatna and the transfer of the Hospital Assistant to the Devanur Railway Station to watch

all

all arrivals there - Devanur is an important point, as it is at this station that passengers to the Eastern side of the Chick = magalur Taluk, and the Southern parts of Kadur Taluk alight.

(3) The Hospital at Kalasa should also be closed and the Hospital Assistant brought into Chickmagalur to help the civil surgeon.

(4) The Basavanahalli Branch dispensary can be closed at any moment, if we find it necessary.

(5) I do not think any further moves are necessary at present but should an occasion arise the Kudigere and Sakkabile Hospitals could

Dear Sir,

In reply to your letter received this evening, my opinion is that Sahaspatra may be closed and even the Basawankally Branch Dispensary, if necessary.

The man at Hariarpur cannot be withdrawn, as I have just recommended to the Senior Surgeon that he may be brought on to Chittracghur, as my Asst. Surgeon is on leave.

Owing to Miss Palmer's illness (and I am afraid she will not be able to attend to her work for some time to come) I have to manage the Hospital work single handed with only a Hospital Assistant - so no hand could be spared from the Civil Hospital, as we are already undermanned and

I have requested the Senior Surgeon to send me a hand.

The Asst. Surgeon (Mr. Hanmanth Rao) used to attend to the Plague work but since last week H. A. Lakshmi narayan Iyer was doing it. I have had to send him to the Dispensary for Women & Children and now I manage it myself with the aid of the Hospl. Assistant (the only Medical hand available) in the Civil Hospital.

the Planters employed a doctor at their own cost, selecting for the post one that had the advantage of Education and training in Europe. Owing to some depression in Coffee industry, they find it difficult to maintain that officer any longer. They, therefore, seek the help of Government in the matter. When I had been to Koppa the other day, Mr. Skeiving the President of the North Mysore Planters' Association, Mr. Parton the Honorary Secretary, and some others saw me on the subject and pressed the matter for early consideration. The chief difficulty is about the treatment of their families. It would appear that

the Hospital Assistants are unable either to understand them or treat them successfully; and from the nature of their training and qualification they are believed to be unequal to the task. It is thus necessary to give them (ie to Station at Koppa; a medical officer of a higher standing viz, an Assistant Surgeon, who has had training in Europe. He will not only be able to attend to the planters and their families but also to the very large number of coolies in their Estates. Further, the advantage of having a really Superior medical assistance for the

the general public in those malarious parts is obvious. The planters are willing to contribute towards this & therefore, recommend for the favourable consideration of Government the proposal to Station at Koppa a Superior medical officer of European training, in addition to the present Hospital Assistant, on the condition of the planters paying a contribution of a hundred rupees per month. ∴ Considering the heavy European capital which is spent in our country, this Extra assistance and Expenditure, which are no luxury but dire necessity, are

No. 36
Dated. 6/7/99

Sir,

I have the honor to acknowledge the receipt of your No.Mis.253-92 (Encl.I 14583) dated the 27th Ultimo, forwarding for my opinion letter No. 627 of 13.6.99 from the Deputy Commissioner, Kadur District, recommending that a Superior Medical Officer of European training may be posted at Koppa. From the letter of [illegible] the Hony. Secretary, North Planters Association I gather that all they want is for Government to give them a grant of Rs. 200/- per mensem towards the cost of employing a European Medical Officer for the use of the planters, as owing to the depression in Coffee Industry they are not able to afford to meet the entire cost of such an Officer. I quite agree with the remarks of the Deputy Commissioner that a Medical man of the class he alludes to is very necessary, and I am of opinion that it would be far better for Government

to

to give them a grant-in-aid of say Rs. 200/- per mensem than for Government to post one of our own Officers there. The planters would then be able to select their own man, whose whole time would be taken up with looking after the wives and families of the planters and the coolies working on the several Estates, and if, as it is sincerely to be hoped that there is a boom in the coffee industry, Government could at any time withdraw the grant-in-aid, should they think desirable so to do.

Sir,

Government in order No 2339-41 / 9mis 728 of the 23rd August 1899 sanctioned, as a special case, and as a temporary measure for one year, a grant-in-aid of Rs 200/- per mensem, towards the maintenance of a European medical officer by the North Mysore Planters' Association at Koppa.

2 With reference to this grant, I have the honor to forward herewith a copy of letter, dated 4th June 1900, from Mr. H. Edington, Honorary Secretary, to the Medical Board, Koppa, requesting Government to continue the grant-in-aid permanently, or, at any rate, until the position of the coffee industry has materially improved.

3. He states, that the help given by Government has proved a great boon to the planting community, that in the

hopes

hopes of the grant being continued, they have secured the services of a European Doctor with English qualifications, and that it would be impossible for the members of the Medical Fund, to support the Doctor without Government aid, so long as the depression in the coffee industry continues.

4. In forwarding Mr Edingtons letter I would most strongly recommend the claims of the European Planting Community of Koppa in this matter, to the favorable consideration of Government. Koppa is a very isolated spot, 40 miles from the nearest Railway Station at Tarikere, and over 40 miles from Chikmagalur, where the Civil Surgeon resides, and it is impossible for competent medical aid to be available there in any emergency, unless the Surgeon lives on the spot. The majority of the Planters in this neighbourhood are married men and they naturally wish for the best medical advice and treatment for their wives and families.

5. While the coffee industry was in a fairly flourishing condition, the

Planting Community of Koppa managed to support a European practitioner, though in a somewhat spasmodic way; but now that times are hard and prices bad, they find it impossible to do so without Government aid.

6. The extra expenditure incurred can, I think, be met by almost equal retrenchment if Government acquiesce in the following recommendation, viz: that instead of keeping an Assistant Surgeon at Koppa, and a Hospital Assistant at Hariharpur as heretofore, only a Hospital Assistant be located at Koppa and the appointment of a Hospital Assistant at Hariharpur be abolished, after the removal of the Head-quarters of the Taluk to Balgadi. In this way Government would save the pay of one Hospital Assistant and the difference between the pay of an Assistant Surgeon and the other Hospital Assistant to counterbalance the

grant

grant-in-aid of Rs 200/- per annum to the Koppa medical Fund.

Sir,

I have the honor to acknowledge your letter, no 1531, dated camp Koppa 20th/22nd may 1900, and in reply write on behalf of the committee and members of the Koppa medical fund to ask you to be kind enough to beg the Impone Government to confirm their grant-in-aid of Rs 200/- per mensem towards the maintenance of the medical officer at Koppa, and to make it permanent, or at least to continue it until the position of the coffee industry has materially improved.

The grant, which was sanctioned last year as a special case and as a temporary measure, has proved a great boon to the planters of North Impone, and owing to its aid and in the hopes of its continuance a European Doctor with English qualifications has been engaged, whom

it would be impossible for the members of the Medical Fund to support without assistance, so long as the price of coffee remains as at present below the cost of production.

Trusting that you will exert your influence with Government on our behalf, and thanking you for the trouble you have already taken in the matter.

Letter No. 36, dated the 6th July 1899, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, reporting on the proposal of the Deputy Commissioner, Kadur district, to make a contribution towards the maintenance of a Medical Officer by the North Mysore Planters' Association, Koppa and recommending, owing to the depression of the coffee industry and the inability of the Planters to meet the extra cost of the said Medical Officer, that a grant-in-aid of Rs. 200 per mensem be sanctioned temporarily, with liberty to Government to withdraw the same at any time, should they think it desirable so to do.

No. 2339-41—MIS. 728, DATED BANGALORE, 23RD AUGUST 1899.

ORDER THEREON.—Under the circumstances represented, Government are pleased to sanction, as a special case and tentatively, the grant-in-aid required for one year, *viz.*, Rs. 2,400 at Rs. 200 per mensem, the charge being met from savings in the current year's Medical budget.

The Planters of the Kadur Dt. ask for the continuance of the Govt contribution of Rs. 200 per mensem for a Medical man for Koppa, which was temporarily sanctioned for a year.

Asst Surgeon Mr C Rajaram Rao (on pay Rs 250 per mensem) was only recently sent to Koppa.

The Senior Surgeon (Major Smythe) says that the Asst Surgeon may be removed from Koppa, a Hospital Asst being sent there instead, and that the contribution of 200 Rs to the Planters for maintaining a European Medical man be continued for another year.

With reference to your Memo. Dated July 1901

Sir,

I have the honor to state with reference to your No. 226/Mis 53-92 of 5th July 1901 that I have no officers of the rank amongst Assistant or Sub Assistant Surgeons whom I can post to Koppa without imparing the efficiency of the Department that is to say if I post one of my more experienced officers to Koppa it must mean my depriving some other part of the State of his services and replacing him by an inferior officer.

The nature of the duties required of a Medical officer in Koppa demands that he shall be an officer of experience, both professionally and worldly. I have no officer drawing less than Rs.200/- who in any way fulfils this condition. Passing to those drawing above that sum, I find no officer whom I could recommend for the Koppa appointment, that can well be spared from his present appointment. Moreover, in view of the advent of plague, were I to post one of my best men to Koppa I would be depriving myself of the services of an officer who might be indispensable for plague work. I am as short-handed as it is possible to be just now. so that considering the matter broadly I have no hesitation in saying that while it will confer a great favour on the planters to give them the Rs.200/- grant for another year, it is also the wisest and most economical step to take at the present juncture and I therefore recommend

that

Government will be pleased to make the grant accordingly.

I have the honor to be

Sir,

Your most obedient servant

Deputy Commissioner of Kadu

Sir, I am instructed by the Committee of the Koppa medical Fund to request you will be good enough to apply to the Mysore Durbar for a continuance of the grant of ~~Rs~~ 200/- per month at present so generously allowed to the above fund on the expiry of the present term in August next

The importance of the medical Fund to this District cannot be overrated, for situated as we are 60 miles from the nearest Civil Surgeon, any serious case would probably prove fatal before the patient could reach Chikmagalur. I would point out that the Coffee industry

in this District as elsewhere is in a much more critical condition now than it was at the time the grant was first voted and without this assistance from Government it would be impossible to carry on the Medical Fund. Coolies all readily accept the Doctor's treatment. Since Dr Dowler's arrival here 18 months ago he has had 45 in-patients in hospital at his Bungalow with a total of over 750 days in-patient treatment. These were all more or less serious cases, one being amputation of the leg which saved the patients life.

The Medical Fund is of Vital importance to this District and I trust the Durbar will see that our application is a just and reasonable one.

I am, &c

The Deputy Commissioner
Kaduna District

Sir,

As the period for which the yearly grant made by the Bryane Government to the Koppa Medical Fund Expires in August, I am instructed by our Committee to request you to be good enough to forward this our application for a continuance of the grant for another year.

The present state of the Coffee industry in three Districts is such that without the help of this grant. we could not possibly keep this Fund going, and when I mention that with the exception of an ordinary Dresser at Koppa our nearest Medical aid is at Chitumagbun, 60 miles off, we are not, I think, making an unreasonable request of Government. Our Fund provides Medical aid to the Coolies (about-

2000/ labouring on 22 Estates belonging to the Fund, so it is well worthy the support of the Government.

Our Medical Officer having just left me and as we are unable to appoint his successor until the grant is sanctioned, an early reply from Government is respectfully solicited.
